

# **CAMA Services International - Mongolia**

## ***OUR PURPOSE:***

To call Mongolians into communities who follow Jesus with passion, and go to the world living His compassion.

## ***OUR VISION:***

We envision multiplying fellowships of Christ followers across Mongolia who reflect the presence of God by:

- Serving, nurturing and equipping one another in true community
- Making new disciples wherever they go
- Developing Christ-like servant leaders
- Transforming communities

## ***OUR CORE VALUES:***

### **Authentic Worship**

And we know that we are living by this value when we are:

1. Individually and corporately entering into the presence of God on a consistent basis, by means of
  - Songs, hymns and spiritual songs
  - The Word and truth
  - Prayer and fasting
  - Other spiritual disciplines
2. Glorifying God by living transformed and obedient lives
3. Practicing integrity in all areas of life.
4. Using the Bible as our primary source of guidance and the reference/foundation for everything we do and teach.
5. Living prayerful lifestyles and making prayer-driven decisions.
6. Understanding, believing and living with the conviction that love for Jesus is the motivation for everything we do, and that the fruit of this will be worship. Joyful service is the product of our authentic worship.

### **United Fellowship**

And we know that we are living by this value when we are:

1. Practicing communion as the body of Christ according 1 Cor. 12 and 13, Eph. 4 and Col. 3:1-17 on a consistent basis.
2. Seeing the unity Jesus prayed for in John 17.
3. Partnering with God, with each other as team members, and with other churches and

organizations to participate in God's mission to achieve his purposes.

4. Respecting those we work with as fellow servants of Christ. This includes resolving conflict among team members in a godly and biblical manner, and teaching Mongolian fellowships to do likewise.

## **Compassionate Service**

And we know that we are living by this value when we are:

1. With the Mongolian church, seeing the lostness of the people around us and having a deep Christ-like compassion for them rather than seeing them as mere potential converts, attendance boosters and church planting material.
2. Practicing integral mission by responding to people's total needs with love, empathy, grace, sensitivity and creativity.
3. Helping, encouraging and empowering believers to achieve their full potential as human beings created in the image of God.
4. Practicing, teaching and living true servant leadership.
5. Practicing a genuine others-orientedness (selflessness) in ministry and life
6. Sacrificing our agenda, routine, reputation, and convenience as/when needed to demonstrate compassion.

## **Courage**

And we know that we are living by this value when we are:

1. Making decisions by faith and not by sight, taking risks and making the necessary sacrifices.
2. Counting the cost, evaluating the risk and choosing to make difficult decisions when necessary.
3. Turning over ministry to trained and equipped Mongolians, allowing them to make mistakes and being willing to allow them to 'learn the hard way' in the hands of God.
4. Improving the quality and effectiveness of our service through creativity and innovation.
5. Willing to risk 'not being liked' by boldly speaking truth in love.
